# CUSTOM ROLLER SKATING BOOTS

Riedell has been celebrating what goes into being the best for over 60 years. Like you, we understand the time spent, the dedication and the attention to detail that puts you above the rest. You'll find the best materials, the best craftsmanship and the best innovative thinking in all of our skates. You'll find the world's top athletes in Riedell boots.

Our finest craftsmen will hand sort, cut and last the boot style of your choice to your exact specifications. We make allowances for orthotics, arches, toe room, heel spurs, bunions, or other irregularities. You will be given choices of colors, leather temper, ankle/boot firmness, heel height, lining material and much more.

We guarantee the craftsmanship, materials, and most importantly the correct fit of your Riedell custom built boots for one year. If for any reason you are not satisfied with the boots within one year of the purchase date, the boots may be returned for corrections or repair.

Length of foot in inches from back of heel to longest toe - in standing position

Name

Take all tracings and measurements in a sitting position and wearing type of socks used when skating. On tracing, mark any bones, bunions, or irregularities. Photos are helpful; front, back and both side views of each foot. Photos should be taken of bare feet.

### Carefully follow these instructions:

- A. Trace outline of right and left foot (in sitting position). Keep pencil in upright or vertical position close to foot.
- B. Before foot is raised or moved from first position, take second tracing around the toe area in standing position.
- C. Keeping tape snug, measure around these 5 points:

### D.

Type of heel

### E.

Heel base and Achilles  
 Wide  Med  Narrow

### F.

Type of arch

### G.

Shape of foot at ball

Thick  Normal  Thin
